Juwan Ha

College of Design
North Carolina State University, Raleigh
50 Pullen Rd, Raleigh, NC 27607

Home: juwanha.github.io
Email: jha4@ncsu.edu
ORCiD: 0000-0002-2588-4477

Research Interest

- Energy Efficiency and Demand Flexibility across Buildings, District Energy Systems, and AI Data Centers
- Physics-Informed Machine Learning and Differentiable Predictive Control
- Scalable and Transferable Coordinated Control of Heterogeneous Buildings and Distributed Energy Resources under Distribution-Network Constraints

Education

08/2022–Present PhD in Design (Design for Energy and Sustainability), North Carolina State University
Supervisor: Soolyeon Cho
Committee: Ning Lu, Jeremiah Johnson, Newton Dsouza
Graduate Certificate in Geographic Information Systems (GIS)

09/2017–08/2019 M.E., Architectural Engineering, Gyeongsang National University
Supervisor: Younghak Song

Thesis: A Study on Circulation Pump Configuration and Cooling Tower Control for Improving the Efficiency of Cooling Source System in Buildings
Outstanding Master's Thesis Award

03/2011-08/2017 B.S., Architectural Engineering, Gyeongsang National University

Professional Experience

08/2022–Present **Research assistant**, North Carolina State University, Raleigh, NC
Supervisor: Soolyeon Cho

06/2026–08/2026 **EEIP PhD Intern**, Pacific Northwest National Laboratory (PNNL), Portland, OR
06/2025–08/2025 Supervisor: Michael Poplawski

06/2024–08/2024 **Research Affiliate**, Lawrence Berkeley National Laboratory (LBNL), Berkeley, CA
Supervisor: Donghun Kim

06/2017–08/2022 **Research assistant**, Gyeongsang National University, Jinju, South Korea
Supervisor: Young-hak Song

01/2017–02/2017 **Engineer Intern**, Hyundai Engineering & Construction (Hyundai E&C), Singapore

Honors & Awards

2026 Best Paper in Controls, IBPSA-USA SimBuild

2026 ASHRAE JR Anderson Travel Award

2025, 2026	PhD in Design Travel Award, College of Design, North Carolina State University
2025	Student of the Year Award, The Korean American Society of Civil, Environmental, and Architectural Engineers (KSCEA)
2025	ASHRAE Graduate Student Grant-in-Aid
2025	Sustainable Future Fellows, North Carolina State University
2025	ASHRAE Student Activities Travel Grant
2025	Linda Latham Scholarship, American Council for an Energy-Efficient Economy (ACEEE) — Awarded, Declined
2024, 2025	Next-Generation Science & Technology Leaders NET, Korean Federation of Science & Technology Societies (KOFST)
2024	Kennan Institute for Engineering, Technology, and Science (KIETS) Climate Leaders Program Fellowship, North Carolina State University
2023, 2024	International Institute of Building Enclosure Consultants (IIBEC) Travel Fellowship
2023	The Association of Energy Engineers (AEE) Foundation Scholarship
2022	University Graduate Fellowships, North Carolina State University
2022	Annual Best Paper Award, Korean Institute of Architectural Sustainable Environment and Building Systems (KIAEBS)
2021	Annual Best Paper Award, Korean Institute of Architectural Sustainable Environment and Building Systems (KIAEBS)
2020	Best Paper Award of Fall Conference**,** Korean Institute of Architectural Sustainable Environment and Building Systems (KIAEBS)
2020	Outstanding Master's Thesis Award, Architectural Institute of Korea (AIK)
2019, 2020	Gyeongsang National University (GNU) Young Pioneer Researcher Award
2019	Annual Best Paper Award, Architectural Institute of Korea (AIK)

2017-Present	Member, Korean Institute of Architectural Sustainable Environment and Building Systems (KIAEBS)

Other Activities

2024-2025	President, ASHRAE at NC STATE
2023-2024	Vice-President, ASHRAE at NC STATE
2023-2024	Secretary, PhD Student Association (PhDSA), Ph.D. in Design, NC STATE
2023-Present	ASHRAE Technical Committees (TC)
	TC 6.2: District Energy
	TC 7.5: Smart Building Systems
	TC 9.9: Mission Critical Facilities, Data Centers, Technology Spaces and Electronic Equipment

Research Proposal Contribution

2026

DOE GENESIS: Phase 1 10-A, Securing U.S. Leadership in Data Centers – Data Center Load Flexibility (ITO)

AI-Orchestrated, Physics-Constrained Digital Twin for Modeling and Control of Multi-Timescale Data Center Load Flexibility

Role: Graduate Student Contributor. Proposal submitted; not funded. PI: Dr. Ning Lu.

2024 **DOE Connected Communities 2.0**

AIM-RESCUE: AI-Driven Management for Resilience and Energy in Sustainable Connected Communities Using Edge Technologies

Role: Graduate Student Contributor. Proposal submitted; not funded. PI: Dr. Soolyeon Cho.

2024 **NSF AI-Ready Testbeds**

SPARC: An AI-Ready Smart and Resilient Community Testbed for Power–Building–Transportation–Communication Nexus

Role: Graduate Student Contributor. Proposal submitted; not funded. PI: Dr. Ning Lu.
